# CURRICULUM VITAE

## PROFILE

I have worked as an operator for five years.
All my life I loved technology and everything connected with it.
Now I want to work as a Front end developer, to completely realize myself and to do what I love
I have not got commercial experience, but I have a few own projects, and experience working in a team

## PROJECTS

**"LEAN ANALYTICS"**
leananalistic.com.ua/

- Worked with design and interface to create a new website from scratch using HTML, SCSS, TypeScript, and Angular
- Collaborated with the team to design new features for our web application
- Used source control tools (GitHub) for deploying.
- Improved site speed by reducing HTTP requests when possible
- Implemented responsive design techniques so the site could be viewed on any device without issue
- The duration of the project is 2 - 3 months

**"GAME CARDS"**
master.dat3o25tjw4mk.amplifyapp.com/

- Developed a simple game for a better understanding of deployment, interaction backend with frontend, and work with database
- Used Aws Amplify for deploying the UI, and Heroku for deploying the server
- Used Node JS for server, and MongoDB for saving data
- The duration of the project is 2 days for UI and 2 week for server

**"THERMOMETER IOT"**
github.com/ShevchenkoT/WeatherArduinoIOT

- Used DHT11 and ESP32 to publish temperature and humidity data to AWS using the MQTT protocol. And with the help of the Telegram bot on Node js showed data
- Project Status: Not finished

**ONLINE PHONE SHOP "YOURSTORE"**
yourstore-01.web.app

- The first project for learning Angular 2, and TypeScript
- Learned about connecting to the Firebase Database API, authentication, using npm packages and other Rest API
- Learned basics and features of Angular 2
- The duration of working on a project and learning 3-4 month

## EDUCATION

**LVIV NATIONAL UNIVERSITY IVAN FRANKO**
NATURAL COLLEGE, COMPUTERS SCIENCE
2013 - 2016
